

CASE STUDY

HazardTrack

Digital Workplace Hazard
Management System

www.zoondia.com

HazardTrack

Category : **Real Estate**

Location : **Abu Dhabi**

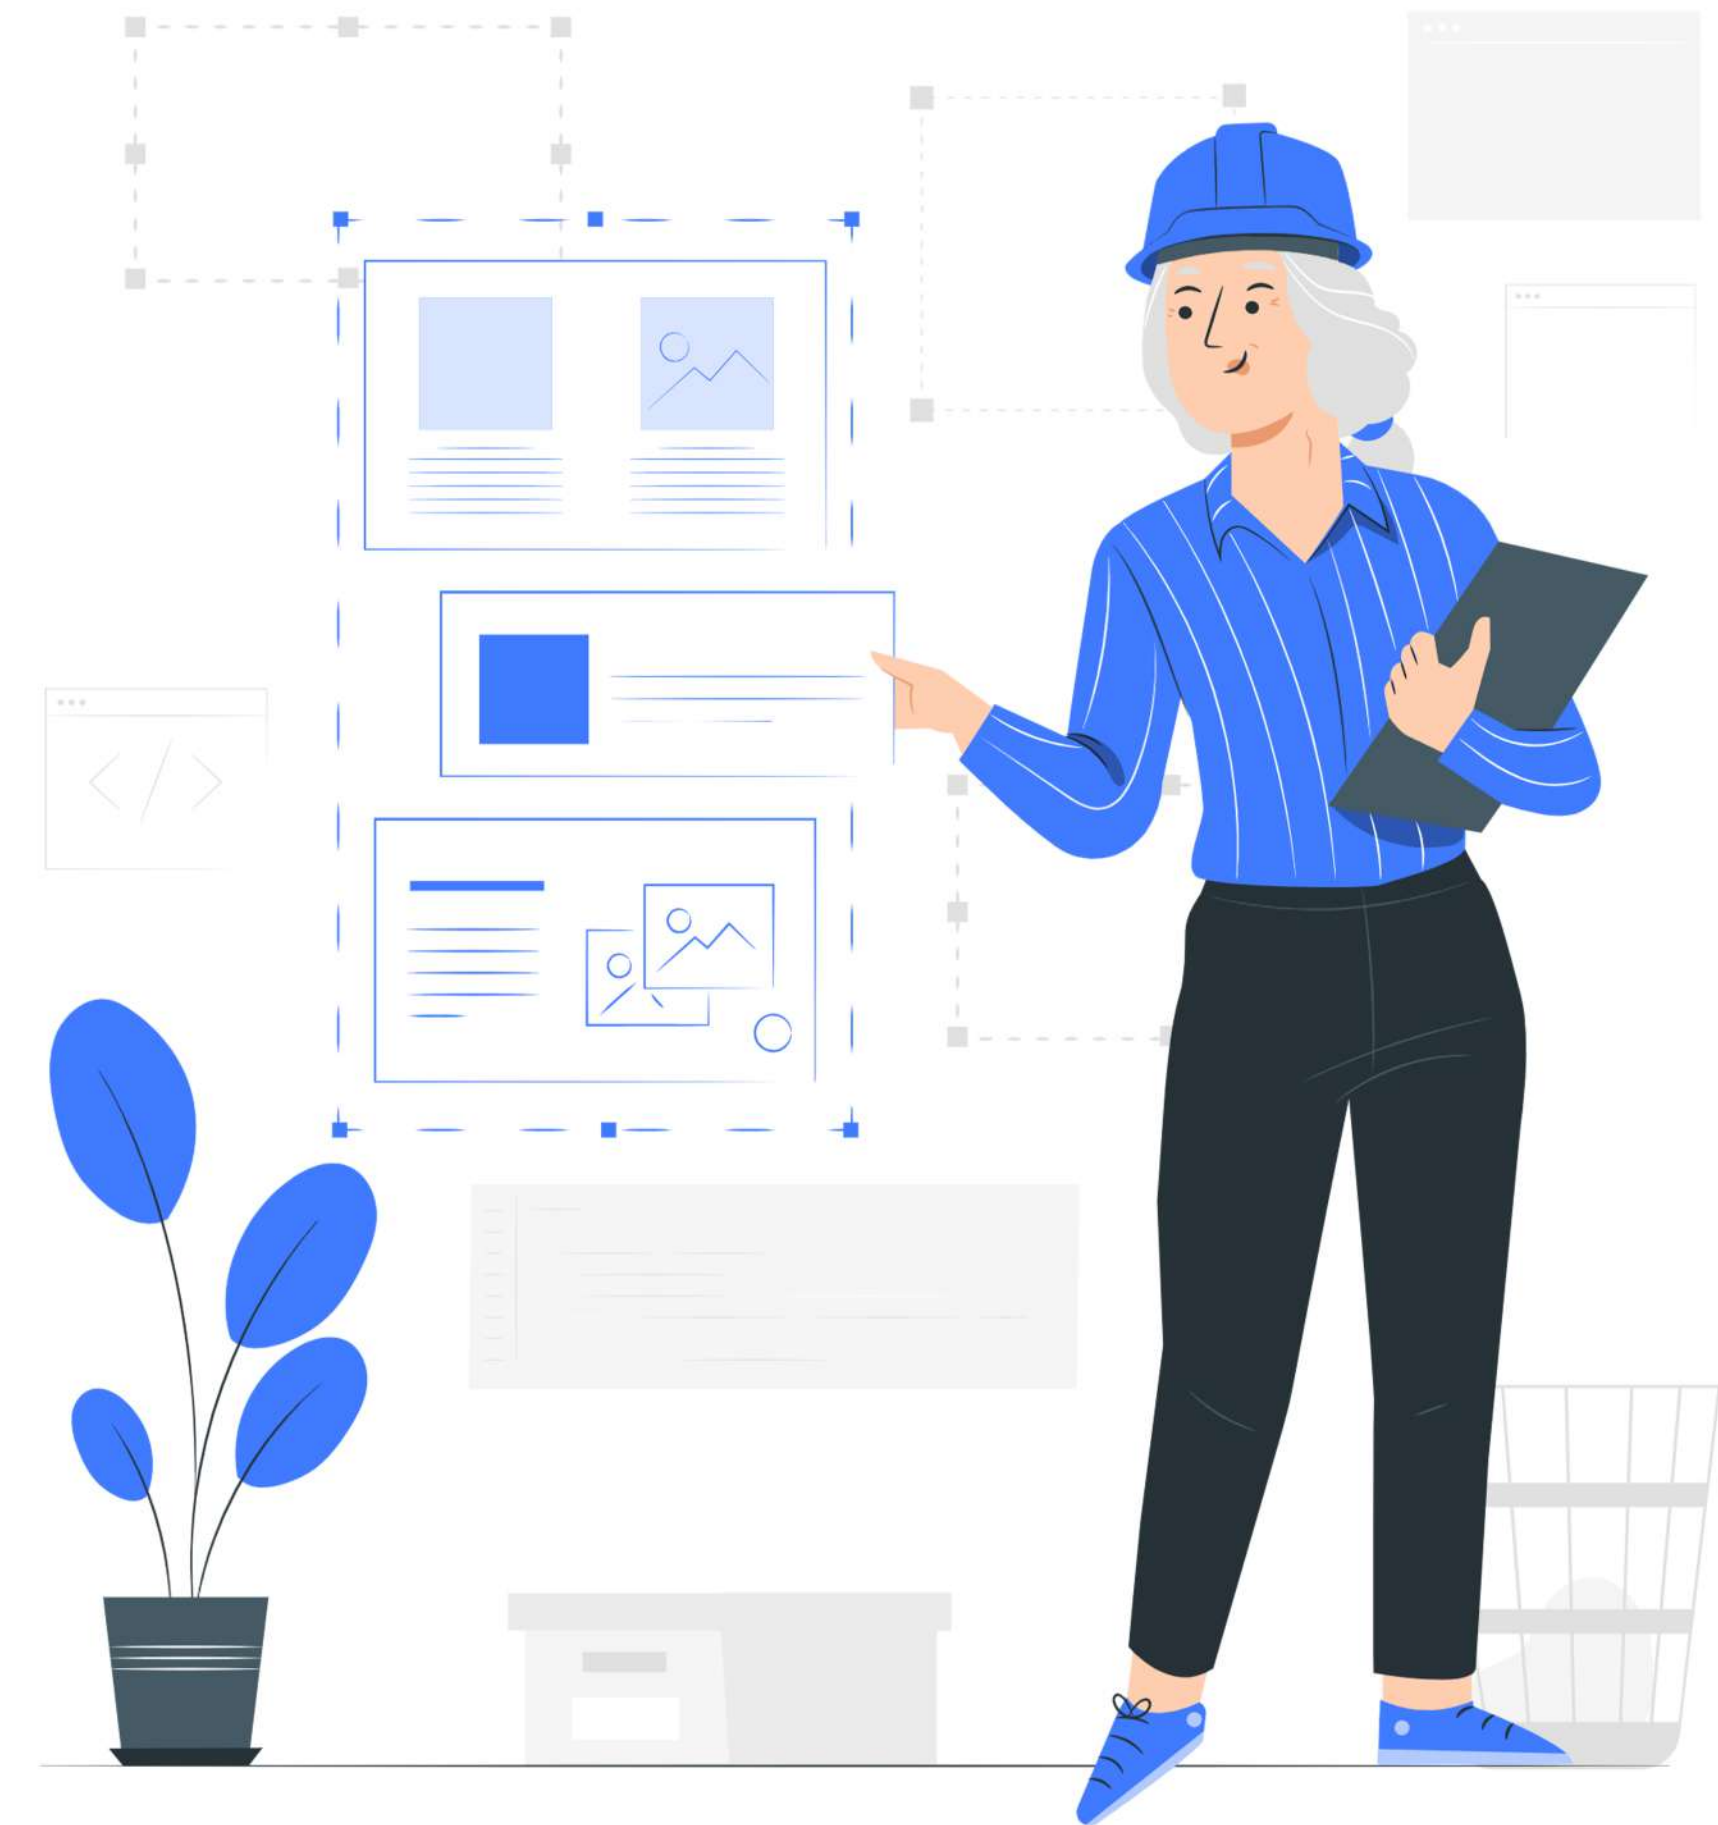

Business Background

A leading real estate builder and construction company in Abu Dhabi struggled to manage workplace hazards effectively. Reporting, tracking, and closing hazard observations were unorganized, leading to inefficiencies and safety risks. The company approached Zoondia to develop an online solution to address these challenges.

Challenges

- **Inefficient Hazard Management**
Lack of a structured system for reporting and resolving workplace hazards.
- **Poor Tracking**
No streamlined process to monitor hazard resolution.
- **Limited Accountability**
Difficulty in assigning and following up on hazard closures.

Approach

Research & Analysis

- ▶ Conducted an on-site evaluation to understand the company's workflows and pain points.
- ▶ Identified gaps in their existing process.

Designing the Solution

- ▶ Proposed a tailored hazard management system.
- ▶ Designed intuitive workflows for reporting, tracking, and closing observations.

Implementation

Developed a platform to:

- ▶ Enable reporting with photographic evidence and descriptions.
- ▶ Assign observations to responsible personnel with tracking features.
- ▶ Generate downloadable PDF reports for transparency and documentation.

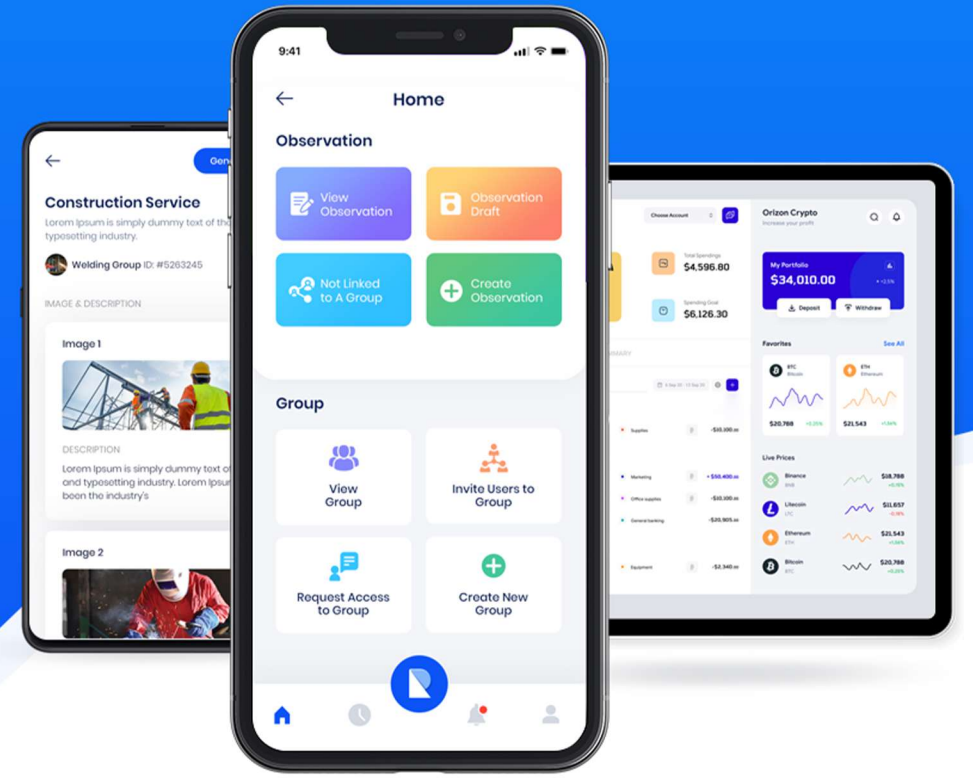

Results

- **Improved Safety**
Hazards are reported and addressed promptly, reducing risks.
- **Enhanced Accountability**
Clear workflows ensure assigned personnel act on hazards.
- **Increased Efficiency**
Streamlined processes save time and reduce manual efforts.
- **Comprehensive Reporting**
Easily accessible records promote transparency.

The Best Action Tracking Solution

Preferred Industries

Construction and Real Estate

Ideal for managing and tracking on-site safety hazards in large-scale construction projects.

Manufacturing and Industrial Plants

Helps in identifying and addressing workplace risks to improve safety standards.

Oil and Gas

Critical for monitoring and managing safety hazards in high-risk environments.

Warehousing and Logistics

Ensures the safety of workers and goods in storage and transportation facilities.

Healthcare

Assists hospitals and medical facilities in identifying and addressing potential safety risks for staff and patients.

Government and Public Sector

Supports regulatory bodies in enforcing workplace safety standards across industries.

Educational Institutions

Helps schools and universities manage campus safety and compliance.

Hospitality and Tourism

Ensures safe environments in hotels, resorts, and tourist attractions.

KEY TAKEAWAYS

This case study demonstrates how a customized hazard management solution can transform workplace safety processes. By addressing the company's challenges with tailored digital workflows, the implemented system streamlined hazard reporting, tracking, and resolution, ultimately fostering a safer and more efficient work environment. The success of this platform highlights the importance of integrating technology to resolve operational inefficiencies and drive sustainable improvements.
