## Introduction

# About Our **Company**

Established in 2008, Zoondia has emerged as a top-tier custom software company, backed by extensive industry experience. Our core mission is to deliver custom solutions to businesses across diverse sectors by merging technical expertise with a deep understanding of their requirements.

Based in Technopark - Trivandrum, and Cyberpark - Kozhikode, Kerala, India, our operational hub combines technical proficiency with business acumen. Additionally, we have established offices across the USA, UK, and Middle East to cater to a wide range of business needs.

With over 16 years of experience, Zoondia remains dedicated to delivering a full suite of tech services, specializing in crafting custom software, web and mobile applications, and leveraging cutting-edge AI to deliver innovative results for our clients. With our comprehensive range of services and expertise, we aim to be the trusted partner for businesses seeking innovative technology solutions.

# Why Zoondia

We offer more than just solutions. We take the time to understand your project needs from your perspective. Our team of experts carefully assesses your requirements, evaluates your current system, and collaborates with your stakeholders to identify challenges and constraints. This approach allows us to create a tailored prototype that perfectly aligns with your business model..
